# Grace and Guidance: Navigating Behaviour Differences

## Discuss:

**How can we model the balance of grace and boundaries in our response to challenging behaviour in a way that reflects Jesus' approach to people?**

## Discuss:

**In what ways might a child's background (trauma, neurodiversity, cultural context) shape their behaviour – and how should this inform our expectations and responses?**

**How can children's ministry teams create consistent behavioural expectations while also remaining flexible to individual needs?**

# Discuss:

**What role does discipleship play in guiding behaviour over time, and how can we partner with families in this journey?**
