

Urgent Prayer for Christian Programs in Schools

Currently in New Zealand, Religious Instruction can legally be taught in state schools.

The Secular Education Network (SEN) is taking the Crown to court to remove this legal right.

Launchpad (formerly known as Bible in Schools) is one of the largest providers of Christian Education in New Zealand schools.

The role of Launchpad in the court case is to provide accurate information about how schools operate Religious Instruction programmes.

The outcome of this court case could affect all Launchpad programs, other Christian programs in schools, Chaplaincy programs, Youth workers and religious observances.

Launchpad urgently requests prayer for our team who are currently working to provide submissions, statements and other material and information to be presented at the court case.

Because the outcome of this court case has the potential to threaten the opportunity that over 40,000 school children currently have on a weekly basis to engage in Launchpad's programs, we want to ensure we are fully prepared and equipped to bring the facts to counter the misinformation which has been submitted. It is not so much fighting the case but defending the truth.

Please join with us in praying for Launchpad, the CEO, the QC engaged by Launchpad and the court case.

We need urgent and ongoing prayer covering for the following areas:

1. Physical, spiritual, emotional and complete protection for our CEO.
2. Wisdom and extreme clarity for the Launchpad team handling of required court documents.
3. Strength, wisdom and favour over our QC's court preparation.
4. Funding for this undertaking.

We thank you for standing with us in prayer at this crucial time.

If you have any queries please contact hello@launchpad.kiwi
